Ohio’s Priorities for Behavioral Health Redesign
Behavioral Health Redesign Vision

OUTCOMES & VISION:

» All Providers: Follow NCCI & practice at the top of their scope of practice

» Integration of Behavioral Health & Physical Health services

» High intensity services available for those most in need

» Developing new services for individuals with high intensity service and support needs;

» Services & supports available for all Ohioans with needs: Services are sustainable within budgeted resources

» Implementation of value-based payment methodology

» Coordination of benefits across payers

» Improving health outcomes through better care coordination; and

» Recoding of all Medicaid behavioral health services to achieve alignment with national coding standards.
Ohio’s Priorities for Behavioral Health (BH) Redesign

1915(i) Program for Adults with SPMI

- Ensure continued access to care for ~4-6K adults with SPMI who meet *financial and clinical needs criteria and who are at risk of potential loss of eligibility for Medicaid
- Cover new services such as Recovery Management, IPS Supported Employment and Peer Recovery Support

Rebuilding Community BH System Capacity

- Recode Medicaid BH services to achieve alignment with national coding standards (AMA, HCPCS, Medicare, NCCI/MUE)
- Redesigning certain existing services (Community Psychiatric Supportive Treatment, Case Management and Health Home services) and provide for lower acuity service coordination and support services
- Develop new services for people with high intensity needs under the Medicaid Rehabilitation Option: Assertive Community Treatment, Intensive Home Based Treatment, residential treatment for substance abuse
- Services are sustainable within budgeted resources

Managed Behavioral Health Care

- Addition of BH services to Managed Care Plan contract, with specific requirements for MCPs to delegate components of care coordination to qualified Community Behavioral Health providers

Payment Innovation

- Design and implement new health care delivery payment systems to reward the value of services, not volume
- Develop approach for introducing episode based payment for BH services

*300% of SSI, includes $20 personal needs disregard ($2,219 in CY 2015); Clinical includes diagnostic (diagnostic (schizophrenia, bipolar or major depressive affective disorders-severe) and score on Adult Needs and Strengths Assessment) tool
Rebuilding Community Behavioral Health Capacity
Key Themes from Stakeholder Survey December 2015

"Rates (MH and SUD) are too low"

"Clarification needed for Rate Table"

"Clarification on Codes for Crisis"

"Inclusion of School Psychologists"

"Billing for Nursing Services and Pharmacists"

"Need Defined Benefit and Service Limitations"

"Clarification on Intensive Home Based Treatment (IHBT) Needed"

"Partial Hospitalization and Intensive Out Patient Codes and Rates"

"Productivity Assumptions and Concerns"

"Timeframe for Implementation (Staff Training, IT Changes, etc.)"

Question: Please provide additional feedback on the rates, codes or budget models presented during the February 10th Core Team and Benefit and Service Development Work Group meeting.
1. Specialized Recovery Services Program implementation remains 7/1/2016
2. Rendering provider requirement starts 1/1/2017 (Publicized to stakeholders in October 2016 – will not pay claims without rendering provider starting 1/1/2017)
   a. LICDC can enroll as a provider at this point
3. Voluntary transition schedule selections: 1/1/2017 and 4/1/2017
4. Full code set transition remains 7/1/2017

Key Dates

- 7/1/2016: Go Live for Specialized Recovery Services Program
- 1/1/2017: System transition for E&M (Psychotherapy add on and interactive complexity add on included) and Nursing Activity codes
- 1/1/2017: Medicaid activates Medicare edits and rendering provider
- 7/1/2017: Transition to new code set complete
2016

**Specialized Recovery Services Program**
- **March**: Recovery Manager Training
- **April**: Eligibility Screening/Pre-enrollment
- **May**: July 1-Eligibility Effective Ongoing identification and enrollment
- **June**: MyCare Enrollment for some SRS program enrollees begins
- **July**: Includes finalizing prior authorization and continued stay criteria
- **August**: Continued Stay/Prior Authorization Utilization Management Entity Contracting
- **September**: Contract Start 10/1/2016. Begin provider outreach and technical training.
- **October**: Finalize all requirements for HP for January 1, 2017 New Code set.
- **November**: MITS Development (HPE)
- **December**: MITS End-to-End Testing; Trading Partner Testing; Medicaid Help Desk Training

**SPA, Rules/Rates Finalization**
- **March**: Includes finalizing prior authorization and continued stay criteria
- **April**: Continued Stay/Prior Authorization Utilization Management Entity Contracting
- **May**: Contract Start 10/1/2016. Begin provider outreach and technical training.
- **June**: Finalize all requirements for HP for January 1, 2017 New Code set.
- **July**: MITS Development (HPE)
- **August**: MITS End-to-End Testing; Trading Partner Testing; Medicaid Help Desk Training
- **September**: Continue BH Redesign Overviews as needed/requested by system partners
- **October**: Training and technical assistance to continue through full implementation as requested
- **November**: Continue BH Redesign Overviews as needed/requested by system partners

**Coding Training**
- **March**: CPT code trainings for January 1: 4/13, 4/14, 4/18, 4/25
- **April**: Collaborate with system partners to determine other training needs
- **May**: Include IT vendors in trainings as needed
- **June**: Provider Manual, Coding and Benefit Training
- **July**: Technical Assistance Activities TBD
- **August**: Technical Assistance Activities TBD
- **September**: Technical Assistance Activities TBD
- **October**: Technical Assistance Activities TBD
- **November**: Technical Assistance Activities TBD
- **December**: Technical Assistance Activities TBD

**BH Redesign Overview**
- **March**: Regional BH Redesign 101 Education Forums hosted by OACBHA in April (Dates TBD)
- **April**: Regional BH Redesign 101 Education Forums hosted by OACBHA throughout May (Dates TBD)
- **May**: Continue BH Redesign Overviews as needed/requested by system partners
- **June**: Continue BH Redesign Overviews as needed/requested by system partners
- **July**: Continue BH Redesign Overviews as needed/requested by system partners
- **August**: Continue BH Redesign Overviews as needed/requested by system partners
- **September**: Continue BH Redesign Overviews as needed/requested by system partners
- **October**: Continue BH Redesign Overviews as needed/requested by system partners
- **November**: Continue BH Redesign Overviews as needed/requested by system partners
- **December**: Continue BH Redesign Overviews as needed/requested by system partners

**ASAM, ACT and IHBT**
- **March**: Technical Assistance Activities TBD
- **April**: Technical Assistance Activities TBD
- **May**: Technical Assistance Activities TBD
- **June**: Technical Assistance Activities TBD
- **July**: Technical Assistance Activities TBD
- **August**: Technical Assistance Activities TBD
- **September**: Technical Assistance Activities TBD
- **October**: Technical Assistance Activities TBD
- **November**: Technical Assistance Activities TBD
- **December**: Technical Assistance Activities TBD
Rebuilding Community Behavioral Health Capacity

Targeted Topics/Workgroups
### Behavioral Health Redesign Project Scope

The below table lists the key topics that are within scope for overall BH Redesign moving forward.

#### Behavioral Health Redesign Scope

<table>
<thead>
<tr>
<th>Solutions Identified</th>
<th>Solutions Under Development</th>
</tr>
</thead>
<tbody>
<tr>
<td>✓ ASAM Levels of Care</td>
<td>• Pharmacists</td>
</tr>
<tr>
<td>✓ Genetic Testing (E&amp;M Services)</td>
<td>• Early Childhood, Early Intervention</td>
</tr>
<tr>
<td>✓ Psychological Testing</td>
<td>• MCP and Provider Interaction</td>
</tr>
<tr>
<td>✓ SBIRT</td>
<td>• High Fidelity Wraparound for Kids</td>
</tr>
<tr>
<td>✓ School Psychologists</td>
<td>• Labs, Vaccines and Provider Administered Medications</td>
</tr>
<tr>
<td>✓ Crisis</td>
<td>• Benefit Packages, Prior Authorization and Continued Stay Criteria</td>
</tr>
<tr>
<td>✓ Opioid Treatment Programs</td>
<td>• Care Coordination</td>
</tr>
<tr>
<td>✓ Partial Hospitalization, Day Treatment and Intensive Outpatient</td>
<td>• CPT Rate Adjustments</td>
</tr>
<tr>
<td>✓ Peer Recovery Support</td>
<td>• ACT and IHBT</td>
</tr>
<tr>
<td>✓ SUD Group Counseling</td>

Additional information on topics in green are located in the appendix.
Rebuilding Community Behavioral Health Capacity

**Targeted Topics/Workgroups:**

**Therapeutic Behavioral Services**
Physicians (Or equivalent)  
Licensed Practitioners

Bill: CPT Codes

CPT Codes Would Include the Following Types of Services:
✓ Assessments
✓ Psychological Testing
✓ Individual/Group/ Family Therapy
✓ Crisis

Gap Identified for Licensed Practitioners:
✓ Behavioral Health Intervention / Skills Development (when not considered Psychotherapy by practitioner)

Bill: HCPCS Codes – Unlicensed Practitioners

Unlicensed TBS (H2019)
MAEs¹
BAs²

HCPCS Code Would Include the Following Types of Services:
✓ Development of Treatment plan
✓ Service Planning
✓ Care coordination
✓ Collateral contacts
✓ Identify triggers/Interventions
✓ Individual/Group/Family Therapy
✓ EBPs

Key Consideration for Unlicensed Practitioners:
✓ Collateral contacts are allowed and billable under TBS (H2019)

Unlicensed PSR (H2017)
QMHS – HS Masters or Bach. No experience

HCPCS Code Would Include the Following Types of Services:
✓ Implement the plan established
✓ EBPs

Providers cannot bill Medicaid for phone call time, as time spent on phone calls is built into rate as indirect cost
Rebuilding Community Behavioral Health Capacity

Targeted Topics/Workgroups:

Children’s Mental Health
Children’s Mental Health Topics

- Respite
- Early Intervention
- Evidence Based Practices
- Crisis Intervention
- Psychological Testing
- Day Treatment
- High Fidelity Wraparound
- Partial Hospitalization
Children’s MH Update

The state is continuing to work through the following items in regards to key Children’s BH services:

- Identifying Timeline
- Identifying Options for Federal Authorities
- Managed Care Implementation

High Fidelity Wraparound

- Exploring options for expanding eligibility and types of respite in (b)(3) waiver by January 2017
- Continuing to work through alternative options in the future

Respite

- Exploring the use of expanded qualifying diagnoses for 0-6
- EPSDT compliance

Early Intervention
Rebuilding Community Behavioral Health Capacity

Targeted Topics/Workgroups:

Psychological Testing and School Psychologists
Psychological Testing

The following codes were added to the rate chart and are currently covered under Medicaid, today (will continue post January 2017):

- **96101**: Psychological testing with interpretation and report, per hour.
- **96111**: Developmental testing; extended with interpretation and report.
- **96116**: Neurobehavioral status exam per hour of the psychologist's or physician's time, both face-to-face time with the patient and time interpreting test results and preparing the report.
- **96118**: Neuropsychological testing battery with interpretation and report, per hour.

### Additional Rate and Limitation Guidance

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
<th>Limitation</th>
<th>Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>96101</td>
<td>Psychological testing with interpretation and report, per hour.</td>
<td>8 hours/year, any combination of the four psychological testing codes</td>
<td>$59.26</td>
</tr>
<tr>
<td>96111</td>
<td>Developmental testing; extended with interpretation and report</td>
<td></td>
<td>$56.11</td>
</tr>
<tr>
<td>96116</td>
<td>Neurobehavioral status exam per hour of the psychologist's or physician's time, both face-to-face time with the patient and time interpreting test results and preparing the report</td>
<td></td>
<td>$64.10</td>
</tr>
<tr>
<td>96118</td>
<td>Neuropsychological testing battery with interpretation and report, per hour</td>
<td></td>
<td>$78.31</td>
</tr>
</tbody>
</table>
School Psychologists

<table>
<thead>
<tr>
<th>ODE Certification</th>
<th>Psychology Board Licensure</th>
</tr>
</thead>
<tbody>
<tr>
<td>Must have a Master’s Degree in School Psychology</td>
<td>Must meet the following criteria: 4 years of experience as a school psychologist (which can include master’s program internship year), Pass the PRAXIS exam and Pass the Ohio Board of Psychology Oral Exam</td>
</tr>
</tbody>
</table>

Limited to school psychology within the scope of employment by a board of education or by a private school meeting the standards under division (D) of section 3301.07 of the Revised Code, or while acting as a school psychologist in a program for children with disabilities established under ORC Chapter 3323 or 5126.

Can practice school psychology independently under ORC 4732.01 (E)
- Examples: Private practice, independently in a CMHC, hospital, etc.

**ADDITIONALLY** – School Psychologists may work as a School Psychology Assistant, Trainee, or Intern when working in the community under the supervision of a Board Licensed School Psychologist or Psychologist. Psychologist must be registered with the Psychology Board.

Board Licensed Independent School Psychologist
Rebuilding Community Behavioral Health Capacity

Targeted Topics/Workgroups:

Crisis Services
**Licensed Practitioner Providing Crisis Services**

Licensed practitioners may provide crisis care regardless of:
- Whether or not the individual is on their case load;
- or whether or not the individual is a current patient with the agency (i.e., not requiring a recommendation of care).
- If a licensed practitioner is providing the intervention, 90839 is billed. +90840 can be billed for each additional 30 minutes.

<table>
<thead>
<tr>
<th>Unlicensed Practitioner Providing Crisis Services</th>
</tr>
</thead>
<tbody>
<tr>
<td>For unlicensed practitioners, crisis may only be billed to Medicaid if the recipient of the intervention is known to the system, currently carried on the unlicensed practitioner’s caseload and a licensed practitioner has recommended care. If an unlicensed practitioner is providing the service to someone on their caseload, the practitioner will bill:</td>
</tr>
<tr>
<td>• <strong>MH Crisis</strong> - IITS (H2019) or PSR (H2017)</td>
</tr>
<tr>
<td>• <strong>SUD Crisis</strong> - Individual counseling (H0004) or individual counseling IOP level of care (H0015)</td>
</tr>
</tbody>
</table>

*The state is working through assuring this is the standard model of crisis care for behavioral health*
Rebuilding Community Behavioral Health Capacity

Targeted Topics/Workgroups:

Evidence Based Practices for MH
### Mental Health MROs Reference Matrix

<table>
<thead>
<tr>
<th>General State Plan Services</th>
<th>State Designated Best Practice</th>
<th>National Evidence Based Practices (EBP)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Intensive Individual Treatment Services (IITS)</strong></td>
<td>PSR</td>
<td><strong>Assertive Community Treatment (ACT)/TMACT</strong></td>
</tr>
<tr>
<td><strong>Definition</strong></td>
<td>PSR assists individuals with implementing interventions outlined on a treatment plan to compensate for or eliminate functional deficits and interpersonal and/or environmental barriers associated with an individual’s diagnosis. PSR is an individual face-to-face intervention with the individual and includes restoration, rehabilitation and support of daily living skills to improve self-management of the negative effects of psychiatric or emotional symptoms that interfere with a person’s daily living. Additional PSR is used to assist with restoration and implementation of daily living skills and daily routines critical to remaining successfully in home, school, work, and community</td>
<td>IHBT is a mental health service designed to meet the needs of youth with serious emotional disturbances who are at risk of out-of-home placement or who are returning home from placement. The goal of IHBT is to provide the necessary mental health services and supports to enable youth to live in their homes in the least restrictive, most normative setting possible. IHBT services are provided in the home, school, and community where youth live and function. These services focus on the mental health issues that put the youth at risk, while promoting positive development and health family functioning.</td>
</tr>
</tbody>
</table>

Multi-Systemic Therapy and Functional Family Therapy have been removed from the matrix because IHBT and ACT are the EBPs that will be implemented Jan 1, 2017.
ACT – Fidelity Measurements

Please see the printout (Fidelity Rating Tool for ACT) for reference and review

1. Fidelity measures to qualify for ACT billing methodology were built on recommendations and discussions from November 2015
ACT ‘Small Team’ Monthly Billing Summary

**ACT w/ MD/DO:**
Code - H0040

- **MD/DO**: $662.60
- **Masters**: $282.80
- **Bachelors**: $221.41
- **Bachelors**: $221.41
- **Peer Recovery Supporter**: $178.50

**Total**: $1,566.72

**ACT w/ APRN:**
Code - H0040

- **APRN**: $383.75
- **Masters**: $221.41
- **Bachelors**: $221.41
- **Bachelors**: $178.50
- **Peer Recovery Supporter**: $178.50

**Total**: $1,287.87

Under TMACT, 5th unit of bachelors can be billed for Supported Employment
IHBT – Fidelity Measurements

Please see the printout (IHBT Fidelity Rating Tool) for reference and review.

1. Fidelity Measures to qualify for the IHBT billing methodology were built on premises similar to ACT.
Substance Use Disorder (SUD) Benefit

ASAM Criteria
### ASAM Criteria

ASAM’s Criteria uses six dimensions to create a holistic, biopsychosocial assessment of an individual to be used for service planning and treatment across all services and levels of care.

<table>
<thead>
<tr>
<th>Dimensions of Multidimensional Assessment</th>
<th>Description</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Acute Intoxication and/or Withdrawal Potential</td>
<td>Exploring an individual’s past and current experiences of substance use and withdrawal</td>
</tr>
<tr>
<td>2</td>
<td>Biomedical Conditions and Complications</td>
<td>Exploring an individual’s health history and current physical condition</td>
</tr>
<tr>
<td>3</td>
<td>Emotional, Behavioral, or Cognitive Conditions and Complications</td>
<td>Exploring an individual’s thoughts, emotions, and mental health issues</td>
</tr>
<tr>
<td>4</td>
<td>Readiness to Change</td>
<td>Exploring an individual’s readiness and interest in changing</td>
</tr>
<tr>
<td>5</td>
<td>Relapse, Continued Use, or Continued Problem Potential</td>
<td>Exploring an individual’s unique relationship with relapse or continued use or problems</td>
</tr>
<tr>
<td>6</td>
<td>Recovery/Living Environment</td>
<td>Exploring an individual’s recovery or living situation, and the surrounding people, places, and things</td>
</tr>
</tbody>
</table>
ASAM Levels of Care

REFLECTING A CONTINUUM OF CARE

Outpatient Services

Intensive Outpatient/ Partial Hospitalization Services

Residential/ Inpatient Services

Medically Managed Intensive Inpatient Services

Early Intervention

Intensive Outpatient Services

Partial Hospitalization Services

Clinically Managed Low-Intensity Residential Services

Clinically Managed Population-Specific High-Intensity Residential Services

Clinically Managed High-Intensity Residential Services

Note:
Within the five broad levels of care (0.5, 1, 2, 3, 4), decimal numbers are used to further express gradations of intensity of services. The decimals listed here represent benchmarks along a continuum, meaning patients can move up or down in terms of intensity without necessarily being placed in a new benchmark level of care.

The blue double ended arrow represents scope of Levels of Care in Redesign.
## SUD SPA and Provider Manual

<td>- Will have full listing of billing codes, modifiers, fee schedule, and diagnosis codes.</td>
</tr>
</tbody>
</table>
The state and selected SUD providers met on April 6th, 2016 to review the SUD Residential budgeting data inputs and assumptions and garner feedback to take into account for the next budget model iteration.

Of the feedback, staffing aligned in the ASAM levels within the budget model was something that most providers were interested in addressing and the State agreed that providers could perform an ‘as is’ vs. proposed staffing analysis to send to the state.

The SUD provider agencies sent back an analysis of staffing aligned with the ASAM levels for comparison to the states current model.

The state will use the staffing analysis and incorporate feedback into a new budget model if necessary.
Opioid Treatment Program Request Update

DRAFT OTP Response
(See Printed Version for Complete Information)

Additional Background

- OTPs have requested a code to bill for direct observation of oral administration of a medication assisted therapy.
  ✓ The state agrees and is currently working through the policy and operational guidance moving forward.
- See current draft (printed) policy letter for complete information

1. Medicaid payment for daily medication administration and observation associated with Buprenorphine based medications.

   In early versions of the draft coding and rate chart developed to support the Ohio Medicaid Behavioral Health Redesign project, Healthcare Common Procedure Coding System (HCPCS) code H0033 — "oral medication administration, direct observation" was included by the state as a placeholder. In subsequent versions, this code was removed due to redundancy. OTPs have identified the removal of H0033 and have requested that Medicaid reinstitute H0033 as a billing code specifically for OTPs to use when providing daily medication administration of Buprenorphine based medications. Ohio Medicaid is revising its coverage policy associated with Buprenorphine based medications to include, beginning with services provided on and after January 1, 2017, covering the medication and professional component associated with daily administration of Buprenorphine based medications performed by OTPs.

2. Evaluation and Management (E/M) Office Visit Services in conjunction with administering a Buprenorphine based medication.

   When a client is being seen by a medical practitioner for an E/M office visit and a daily dosage of a Buprenorphine based medication is administered, the OTP should bill the appropriate E/M code within the ranges 99211-99215 for an established patient. 99201-99205 (for a new patient) would be used for the induction phase of medication assisted treatment using Buprenorphine based medications. If the rendering medical practitioner is a Registered Nurse (RN) or a Licensed Practical Nurse (LPN), then the only E/M code available for billing their nursing services encounter when a Buprenorphine based medication is also administered is 99211. However, if the RN or LPN is working to assist a higher level medical practitioner (MD, DO, APRN or PA) and their nursing activities are "incident to" the higher level medical practitioner, then the E/M code should be billed with the higher level medical practitioner as the named "rendering" provider. The Buprenorphine based medication being administered should be billed in addition to the E/M code.
Pharmacological Management and Medical/Somatic Transition to Medical Services

January 1, 2017 Transition
# CPT Rate Chart – Evaluation and Management (E&M), Psychotherapy and Interactive Complexity

## E&M CPTs

<table>
<thead>
<tr>
<th>CPT Code</th>
<th>*2016 Medicare Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>99201</td>
<td>$41.97</td>
</tr>
<tr>
<td>99202</td>
<td>$71.97</td>
</tr>
<tr>
<td>99203</td>
<td>$104.49</td>
</tr>
<tr>
<td>99204</td>
<td>$160.23</td>
</tr>
<tr>
<td>99205</td>
<td>$201.38</td>
</tr>
</tbody>
</table>

## New Patients

- MH and SUD Patients:
  - 99211: $18.96
  - 99212: $41.62
  - 99213: $70.42
  - 99214: $103.93
  - 99215: $140.37

## Established Patients

- MH and SUD Patients:
  - 99211: $18.96
  - 99212: $41.62
  - 99213: $70.42
  - 99214: $103.93
  - 99215: $140.37

*Note – Medicare rates decreased slightly due to change from federal Medicare rates to the Ohio Specific Medicare Rates

## E&M and Psychotherapy Add Ons

<table>
<thead>
<tr>
<th>CPT Add On Code</th>

</tr>
</thead>
<tbody>
<tr>
<td>Psychotherapy</td>
<td></td>
</tr>
<tr>
<td>+90833</td>
<td>$65.37</td>
</tr>
<tr>
<td>+90836</td>
<td>$83.03</td>
</tr>
<tr>
<td>+90838</td>
<td>$109.53</td>
</tr>
</tbody>
</table>

**Interactive Complexity with Psychotherapy**

- +90785: $13.81

**Prolonged Service**

- +99354: $76.43
- +99355: $75.87

**Interactive complexity is an add on code to the add on psychotherapy codes. It can not be added on to an Office Visit Evaluation and Management code only.**

The goal is to use these rates and codes to hold spending relatively constant for medical services provided by Physicians, Physician Assistants and Advance Practice Registered Nurses.
MH CPT and HCPCS for Services Provided from January 2017 to June 30th, 2017

Until a provider transitions to the new code set the codes listed below will remain the same for billing purposes.

Registered Nurses and Licensed Practical Nurses

For services provided on and after January 1, 2017, three CPT/HCPCS codes will be available for nursing activities rendered by RNs or LPNs as a replacement for MH pharmacological management (90863) and SUD medical/somatic (H0016) for all agencies, there will be no exceptions:

Behavioral Health Codes for Nursing Activities

- 99211
- H2017
- H2019

Key Takeaways

1. Registered Nurses and Licensed Practical Nurses will need to enroll with Ohio Medicaid because they will be expected to be a rendering provider.
2. Rendering type and education will be what drives this rate.
3. These codes and the associated rates will be used during rate setting methodology.

Added to State Plan Amendment (TBS): Nursing assessments and group medication education may only be performed by a registered nurse or a licensed nurse practicing with a Bachelor’s degree within their current scope of practice.
CPT and HCPCS – Nursing Activities by RNs and LPNs

The below matrix provides examples of how components of nursing activities rendered by LPNs and RNs can be coded. LPNs must be supervised by a higher level medical practitioner.

<table>
<thead>
<tr>
<th>Nursing Activity</th>
<th>Behavioral Health Interaction</th>
</tr>
</thead>
<tbody>
<tr>
<td>Nursing Assessment (RN Only)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>RN: 99211 should be used if the activity meets the criteria. Only use H2019 when 99211 is not appropriate or services are delivered outside of the office setting.</td>
</tr>
<tr>
<td>Medication Assessment and Education</td>
<td>LPN: 99211 should be used if the activity meets the criteria. Only use H2017 when 99211 is not appropriate or services are delivered outside of the office setting.</td>
</tr>
<tr>
<td>Symptom Management</td>
<td></td>
</tr>
</tbody>
</table>
The previous slides lists the codes that will be used starting January 1, 2017.

There are additional service codes that will be available when providers transition on January 1, 2017, April 1, 2017 or July 1, 2017 (July 1, 2017 is a mandatory transition date). Some examples are:

- Intensive Outpatient
- Standalone Psychotherapy
- Intensive Home Based Therapy
- Assertive Community Treatment
- Psychological Testing

Above examples are not comprehensive of all codes to be available July 1, 2017
Pharmacological Management and Medical/Somatic Transition to Medical Services

January 1, 2017 Transition Laboratory Services and Vaccines
Laboratory Services and Vaccinations

As health care continues to evolve, the State recognizes that there is a level of appropriateness for certain general health care services that a BH provider should be able to perform.

**Scenario 1**
An established patient (child) comes in for a scheduled appointment with their parent/guardian and there is no evidence that they have ever received a mumps/measles vaccination, what can a provider do?

Discuss the benefits of vaccinations and offer a measles/mumps vaccination.

**Scenario 2**
An established patient (woman) comes in to the CBHC for a regularly scheduled medical appointment and reveals that she may be pregnant, what can a provider do?

Discuss pregnancy in relation to psychotropic medication(s) and treatment for her MH condition and offer a pregnancy test.

*Why are we doing this?*
To aid in health and welfare of our consumers using sound medical judgment and practice.
CLIA – Clinical Laboratory Improvement Amendments

CLIA requires all facilities that perform even one test, including waived tests, on “materials derived from the human body for the purpose of providing information for the diagnosis, prevention, or treatment of any disease or impairment of, or the assessment of the health of, human beings” to meet certain Federal requirements.

Types of CLIA Certificates

- **Certificate of Waiver:** Certificate issued to laboratory to perform only waived tests
- **Certificate of Provider-Performed Microscopy Procedures:** Certificate issued to lab with a physician/midlevel practitioner or dentist and performs only microscopy procedures
- **Certificate of Registration:** Certificate issued to a lab that allows for moderate or high complexity lab testing or both until deemed in compliance with CLIA
- **Certificate of Compliance:** Certificate issued to lab after inspection finds lab to be in compliance with CLIA
- **Certificate of Accreditation:** Certificate issued to a lab on the basis of the lab’s accreditation by an organization approved by HCFA
Medicaid Coordination of Benefits

For behavioral health services provided on or after January 1, 2017, Ohio Medicaid will enforce the policy of Medicaid as the ‘payor of last resort’

- **Operational Changes**
  - Any service that can be billed to another insurer, must be billed to that insurer (Commercial or Medicare)
  - This is not an operational change for Ohio Department of Medicaid, but will be a change for BH providers

- **Federal Requirement**
  - Medicaid is federally required to be the payor of last resort

- **Policy Clarification**
  - BH Medicaid claims have not been required to comply with federal regulations re: coordination of benefits. ODM policy will correct this 1/1/2017.
Medicare Certification vs. Medicare Participation

Medicare Certification

- CMHCs have the option to enroll as an institutional provider to deliver Medicare services such as partial hospitalization.
- Certification requires accreditation or survey performed by the CMS designated state survey agency (In Ohio, ODH).

Dates of Service
Jan 1, 2017

Medicare Participation

- CBHCs (MH, SUD or both) have the option to enroll as a group practice.
- Eligible practitioners employed by CBHCs should also enroll as individual practitioners (to be listed as the rendering provider on claim).
- Once the Medicare Administrative Contractor (MAC) has received an application it has 60 days to review and approve or deny it. In Ohio, the MAC is CGS Administrators LLC.
Medicare Participation Overview

The below chart has been developed to provide additional billing guidance for CBHCs employing the impacted practitioners.

<table>
<thead>
<tr>
<th>Rendering Provider</th>
<th>Guidance</th>
</tr>
</thead>
<tbody>
<tr>
<td>Physician</td>
<td>A CBHC employing any of these rendering providers <strong>must bill the Medicare program prior to billing Medicaid.</strong></td>
</tr>
<tr>
<td>Advance Practice Registered Nurse</td>
<td></td>
</tr>
<tr>
<td>Physicians Assistant</td>
<td></td>
</tr>
<tr>
<td>Psychologist</td>
<td></td>
</tr>
<tr>
<td>Licensed Independent Social Worker</td>
<td></td>
</tr>
<tr>
<td>Licensed Professional Clinical Counselor</td>
<td></td>
</tr>
<tr>
<td>Independent Marriage and Family Therapist</td>
<td></td>
</tr>
<tr>
<td>Licensed Independent Chemical Dependency Counselor</td>
<td>For dates of service 1/1/2017 – 12/31/2017, a CBHC employing any of these rendering providers <strong>may submit the claim directly to Medicaid.</strong></td>
</tr>
<tr>
<td>Licensed Professional Counselor</td>
<td></td>
</tr>
<tr>

<tr>
<td>Licensed Social Worker</td>
<td></td>
</tr>
<tr>
<td>School Psychologists</td>
<td></td>
</tr>
</tbody>
</table>
Medicaid Enrollment of Rendering Providers

- Practitioners (chart below) who are employed by MH or SUD providers should begin enrolling with Ohio Medicaid as an individual practitioner as soon as possible

<table>
<thead>
<tr>
<th>Rendering Practitioner</th>
<th>Rendering Practitioner</th>
</tr>
</thead>
<tbody>
<tr>
<td>Physicians (MD/DO), Psychiatrists</td>
<td>Licensed Independent Social Workers</td>
</tr>
<tr>
<td>Advanced Practice Registered Nurses</td>
<td>Licensed Professional Clinical Counselors</td>
</tr>
<tr>
<td>Certified Nurse Practitioners</td>
<td>Licensed Independent Marriage and Family Therapists</td>
</tr>
<tr>
<td>Clinical Nurse Specialists</td>
<td>Licensed Independent Chemical Dependency Counselors (LICDC)** enroll eff 7/1/2016</td>
</tr>
<tr>
<td>Physician Assistants</td>
<td>Registered Nurses</td>
</tr>
<tr>
<td>Licensed Psychologists</td>
<td>Licensed Practical Nurses</td>
</tr>
</tbody>
</table>

Exception: Prescribers already registered with ODM as Ordering, Referring or Prescribing providers need not re-register.

- Beginning in October 2016, MH and SUD agencies should use the MITS self service portal to affiliate their agency with rendering practitioners listed above
- Agencies will also need to “un-affiliate” rendering practitioners listed above when necessary
- Effective for dates of service January 1, 2017, all BH Medicaid claims (both old and new code sets) must include rendering practitioner as listed above
DRAFT Budget Models
Budget Model 4
Revised budget neutral modeling scenario

• Fees under the budget neutral modeling scenario
  • Modeled fees are generally set at the upper bound of the fee range, with the following exceptions:
    • Peer support – set equal to 1915(i) fees at 85th percentile
    • Individual and group counseling services – set at 50th percentile
  • Fees for services that continue from the current system including H0006 (Case Management) are unchanged except for H0036 (CPST) which was updated to be consistent with H0006.
  • Fees for CPT codes excluding E&M, Interactive Complexity, and Psychotherapy Add-ons are set at a revised Medicaid maximum of 77.4% of Medicare (124.8% of current Medicaid maximum) for physicians, nurse practitioners, and licensed psychologists and 85% of the revised Medicaid maximum for other licensed practitioners who are able to bill CPT codes.
  • Fees for E&M, Interactive Complexity, and Psychotherapy Add-ons CPT codes are set at 100% of the Medicare fee schedule.

Budget Model 5
Revised budget plus modeling scenario

- Assumes a $10.0 million investment in children’s mental health services
- Fees are consistent with the budget neutral modeling scenario
- Fees under the budget plus modeling scenario
  - Modeled fees are generally set at the **upper bound** of the fee range, with the following exceptions:
    - Peer support – set equal to 1915(i) fees at 85th percentile
    - Individual and group counseling services – set at 50th percentile
  - Fees for services that continue from the current system including H0006 (Case Management) are unchanged except for H0036 (CPST) which was updated to be consistent with H0006.
  - Fees for CPT codes **excluding E&M, Interactive Complexity, and Psychotherapy Add-ons** are set at a **revised Medicaid maximum of 77.4% of Medicare (124.8% of current Medicaid maximum)** for physicians, nurse practitioners, and licensed psychologists and 85% of the revised Medicaid maximum for other licensed practitioners who are able to bill CPT codes.
  - Fees for **E&M, Interactive Complexity, and Psychotherapy Add-ons** CPT codes are set at **100% of the Medicare fee schedule**.

Goal for Next Budget Model – 3.23.16

Maintain Consistency:
• Fees for E&M, Interactive Complexity, and Psychotherapy Add-ons CPT codes are set at 100% of the Medicare fee schedule
• Fees for services that continue from the current system including H0006 (Case Management) are unchanged except for H0036 (CPST) which was updated to be consistent with H0006
• Peer support: $15.51 (Individual) and $1.94 (Group)

Available for Adjustment:
• SUD Individual and Group Counseling
• Fees for CPT codes excluding E&M, Interactive Complexity, and Psychotherapy Add-ons - see next slide

State’s Promise and Behavioral Health Investment:
• Additional $10M targeted for children’s mental health, as previously discussed
• Additional $25M targeted for fees
• Total of $35M above budget neutrality point
## Rate Updates Based on Revised Budget Models

All other rates remain the same since the February 24th Benefit and Service Development Work Group
Goal

Focus on obtaining feedback on the budget model and the related assumptions that are incorporated into the budget models and draft rates.

Meeting Activities

- Looked at the current pathways to care that individuals follow when seeking and/or receiving services that may be impacted by redesign or may need to be adjusted.
- Discussed the assumptions regarding what is included in the current per diem and what is not.
- Discussed the following key topics:
  - Staffing and practitioner levels
  - Client ratios
  - Hours of programming
  - Community vs. office based
  - *Anticipated frequency of the use of add on codes
  - Costs

*e.g. interactive complexity, prolonged services, or psychotherapy with E&M
Behavioral Health Redesign

The FY 2016/17 State Budget continued the Kasich Administration’s commitment to modernize Ohio’s Medicaid program. At the center of this effort is a proposal to rebuild community behavioral health system capacity across the state. The legislation provided targeted investments to support initiatives such as:

- Developing new services for individuals with high intensity service and support needs;
- Improving health outcomes through better care coordination; and
- Recoding of all Medicaid behavioral health services to achieve alignment with national coding standards.

Under the leadership of the Governor’s Office of Health Transformation, the Ohio Department of Mental Health and Addiction Services and the Ohio Department of Medicaid are collaborating to implement these reforms and enhance the quality of care delivered to residents of our state. In doing so, state partners have enlisted the help and expertise of various stakeholders to serve on the Behavioral Health Redesign Core Team to further inform and guide this work.

Be sure to bookmark bh.medicaid.ohio.gov to stay informed and sign up for the BH Redesign Newsletter for regular updates about this exciting effort.

Reform focuses on improving health outcomes while staying accountable to taxpayers.
Reading the Code and Rate Workbook

The state is working to develop a more user friendly coding and rate Excel workbook that includes all codes and guidance to practitioners on what the limitations of billing are, as well as tabs that cover overall benefit packages.

This tool will not replace a provider manual but will rather be a supplemental document.

</table>
| **Screening, Brief Intervention and Referral to Treatment** | ✓ One per patient, per provider, per code, per year (G0396 and G0397).  
✓ Cannot be billed by provider type 95 |
| **Evaluation and Management Codes (New and Existing Patient)** | ✓ 1 per day, per practitioner, per patient (NCCI) – may be subject to SURS review if in excess of 24 visits per calendar year across all billing providers |
| **Specialized Recovery Services Program: Individualized Placement Support: Supported Employment** | ✓ Must be provided in accordance with the approved Person Centered Care Plan |
| **Specialized Recovery Services Program: Peer Recovery Support** | ✓ No more than 4 hours daily; and  
✓ Must be provided in accordance with the approved Person Centered Care Plan |
Managed Care Design Dimensions

Stakeholder Feedback
May and June 2015
Key Design Dimensions for Consideration: Managed Care Design

**Network Adequacy**

- Assure access to needed services and supports which should include organizational contracts and access to care requirements.
- Define clear expectation for network adequacy, including measures specific to access to services.
- Recognize longstanding Child Protective Services relationship with community providers and unique needs of the client population would impact a continuum of services, considering EPSDT requirements, psychotropic medication management, parent treatment, and timeliness of service.
- Providers of children’s BH services, especially for seriously emotionally disturbed kids, are a very specialized group.

**Integration**

- General - Integrating physical health, behavioral health and other needed services and supports.

**Timeline**

- Patient education and active engagement, continuity of care and patient choice of providers, recognition of current MHAS Certified provider’s base level capacity, limit prior authorization to inpatient psychiatric services, partial hospitalization, detoxification services, and recognize existing FFS payment rates.
- Make consistent with integration of physical health care for child protective services population and sufficient time for CPS infrastructure and workforce changes and training of foster kinship and adoptive parents.
### Key Design Dimensions for Consideration: Managed Care Design

<table>
<thead>
<tr>
<th>Key Design Dimension</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Standardization</td>
<td>• Economies of scale in development of IT infrastructure, mutual data sharing, and data analytics.</td>
</tr>
<tr>
<td></td>
<td>• Define specific expectations around IT as the data element inconsistency is the biggest driver for rising costs and variations.</td>
</tr>
<tr>
<td></td>
<td>• Define the MCP Prior Authorization, Billing, Claims Processing &amp; Payment Requirements</td>
</tr>
<tr>
<td></td>
<td>• Define unique needs relative to prior authorizations, grievances and appeals, protocol for transportation and residential care for Child Protective Services</td>
</tr>
<tr>
<td></td>
<td>• Ensure unique needs of Child protection population outcomes are met and aligned with existing mandated measures</td>
</tr>
<tr>
<td>Quality Indicators</td>
<td>• Child Protective Services BH indicators should not be limited to hospitalizations but should also be ability to learn, stay out of jail, and achieve and sustain successful community living.</td>
</tr>
<tr>
<td></td>
<td>• Establish standard provider quality metrics and performance targets to be achieved during and after transition period</td>
</tr>
<tr>
<td>Funding Structure and Revenue Cycle Mgmt.</td>
<td>• Based on how MITS pays claims, the revenue cycle could potentially be impacted by a large amount of money.</td>
</tr>
<tr>
<td></td>
<td>• Children’s services funding should be structured to support braided funding for child welfare, juvenile justice, education, and developmental disabilities.</td>
</tr>
<tr>
<td></td>
<td>• Establish expectations for provider payment incentive models (shared and/or full risk options). Requirements to transition to value based purchasing.</td>
</tr>
</tbody>

</table>
| **Credentialing, Contracting and Experience** | - Define the credentialing process for providers of certain services  
- Establish clear understanding between stakeholders of allowed contracting and rules/regulations behind contracting  
- Assure adequate MCP experience and expertise with individuals who have been diagnosed with SPMI, SMI & SUD  
- Ensure Managed Care Plans are educated to the child protective population unique needs, including high rates of trauma and the need for more services sensitive to their chronic behavioral health disorders |
| **Care Coordination** | - Define roles for care coordination and coordinated care delivery. |
| **Data** | - Assure capacity & developing infrastructure |
| **Outcomes** | - Focus on outcomes not process |

Specialized Recovery Services

Disability Determination Redesign
Section 209(b) and Spend Down

Individuals can meet the Spend Down in various ways:

Recurring
Person has established monthly costs or unpaid past medical bills that meet the spend down. Person gets their Medicaid card monthly without additional action on their part.

“Pay in”
Spend Down is considered met as of the first of the month, even if the payment was made on the 15th of the month.

Delayed
The person “incurs” costs in the amount of the Spend Down. Cost is “incurred” whether the person pays up front or receives an itemized bill for services.

Individuals can group expenses into certain months so that they meet the spend down in those months.
The 1634 Option

The 1634 option allows states to accept the Social Security Administration’s decision for SSI:

» In Ohio, Opportunities for Ohioans with Disabilities will make decision that a person is eligible for SSI.

» SSI beneficiaries are automatically enrolled on Medicaid.

» The state does not reconsider the determination.
The 1634 Option

**Fairness** in the 209(b) and MAGI (Modified Adjusted Gross Income) adult world:

- A person under 65 without Medicare can get MAGI adult coverage with income up to 138% Federal Poverty Level (FPL).

- A person 65 or older, or with Medicare, has to Spend Down to 64%.

- Two people with the same Spend Down amount may have very different results based on what treatment they need from what provider.
  - In one case, the provider never actually attempts to collect on the “incurred” bill.
  - In another case, the person has to pay up front to get services.

**Administrative simplification:**
- No more Spend Down calculation or collection.
Disability Determination Redesign

✓ On June 30, 2016, Ohio Medicaid will eliminate the program that allows individuals to “spend down” a portion of their income to qualify for Medicaid as a result of the state’s initiative to streamline the disability determination process from two systems into one.

  ✓ It is important to note that although the change in disability determination will take place on July 1, 2016, an individual on spend down will not lose their Medicaid benefit on that date

✓ At the point of conversion, every individual who would have been eligible for Medicaid ABD under the current system, including individuals who qualified by spending down to the income limit in any month during the previous year, will be automatically enrolled in full Medicaid without spend down.

✓ Ohio Medicaid requested, from CMS, a six-month waiver of ABD renewals to ensure that every current beneficiary who is potentially impacted has time to transition to other sources of Medicaid, including the SRS program or, if they are no longer eligible for Medicaid, to seek other sources of coverage.

  ✓ Medicaid eligibility renewals will resume on January 1, 2017 and, from that date forward, the new eligibility criteria will apply to individuals seeking Medicaid ABD renewals.

Specialized Recovery Services program

Medicaid 1915(i) State Plan Program for SPMI Adults
Specialized Recovery Services Program

- Ohio has developed a 1915(i) state plan program to help the estimated 4,000 – 6,000 individuals with SPMI who would otherwise lose Medicaid eligibility to maintain Medicaid eligibility.

- 1915(i) state plan programs are Home and Community Based Services (HCBS) programs and must comply with federal HCBS requirements.
Specialized Recovery Services Program

- Available to all individuals enrolled in SRS program based upon individual needs as identified in the person-centered plan

Individualized Placement and Support-Supported Employment (IPS-SE)

- All individuals enrolled in SRS program will receive the Recovery Management service based upon individual needs as identified in the person-centered plan

Recovery Management (RM)

Peer Recovery Support (PRS)

- Available to all individuals enrolled in SRS program based upon individual needs as identified in the person-centered plan

Recovery Manager and IE Interaction

Potentially eligible individual identified

IE Selects Recovery Manager to ‘link up’ with individual

Recovery Manager performs ANSA, develops the Person Centered Plan of Care, collects documentation and makes recommendation to the IE on eligibility

IE performs final review of documentation received from RM and makes eligibility recommendation to send to CDJFS for final determination

Recovery Manager begins care coordination and recovery management services

Recovery Manager works with the individual to ensure adequate services, supports and other needs are met

The above visual explains the interaction between the Recovery Manager and the IE to enroll an individual into the Specialized Recovery Services Program
Recovery Manager Overview

Why have a Recovery Manager?

- Facilitates the initial eligibility determination and streamlines overall enrollment process
- Supports the Person-centered planning process

What is a *Recovery Manager?

- Works with the individual to perform care coordination
- Works with individual to develop the person centered plan of care and documents individuals desires, needs, and goals.
- Performs the ANSA to assess the needs and strengths of the individual

What are the Qualifications to be a Recovery Manager?

1. Bachelor’s degree in social work, counseling, psychology, or similar field
2. Trained in administering ANSA
3. Trained in evaluating HCBS living arrangements
4. Minimum of 3 years post degree experience working with individuals with serious mental illness (SMI)
5. Trained in person centered planning
6. Trained in incident reporting and Meet state conflict of interest standards

*For a complete overview of the Recovery Manager, please see the 1915(i) State Plan Amendment
Recovery management activities include:

– Face-to-face eligibility evaluation, including:
  
  • Administration of the ANSA;
  
  • Verification of the individual's residence in a home and community-based setting as described in rule 5160-44-01 of the Administrative Code. See ODM HCBS Checklist in clearance: [http://medicaid.ohio.gov/Portals/0/Resources/LegalandContracts/Rules/DR-NonBIA/W03212016.pdf](http://medicaid.ohio.gov/Portals/0/Resources/LegalandContracts/Rules/DR-NonBIA/W03212016.pdf)
  
  • Verification of the individual's qualifying behavioral health diagnoses as described in the appendix to rule 5160-43-02 of the Administrative Code; and
  
  • Evaluation of all other eligibility criteria as described in paragraph (A) of rule 5160-43-02 of the Administrative Code.
  
  • Person-centered care planning, monitoring and updating the care plan, as described in rule 5160-44-02 of the Administrative Code.
Specialized Recovery Services Program
Recovery Management

Procedure Code for Recovery Management
• T1016 – Case Management

Billing and Certification Information
• Billed in 15 minute increments
• Recovery Management providers are selectively contracted with ODM and are not certified by OhioMHAS. RM providers will be enrolled in Ohio Medicaid as a provider type 45.
IPS-SE activities include:

– Benefits planning;
– Development of a vocational plan;
– General consultation, including advocacy and building and maintaining relationships with employers;
– Individualized job supports, including regular contact with the individual’s employer(s), family members, guardians, advocates, treatment providers, and other community supports;
– Job coaching;
– Job development and placement;
– Job seeking skills training
Specialized Recovery Services Program

*Individualized Placement and Support-Supported Employment*

IPS-SE activities (Cont’d) include:

– On-the-job training and skill development;
– Vocational rehabilitation guidance and counseling;
– Time unlimited vocational support; and
– Vocational assessment.
**Specialized Recovery Services Program**

*Individualized Placement and Support-Supported Employment*

### Procedure Codes for IPS-SE
- H2023-Initial Visit
- H2025-Ongoing Visits

### Billing and Certification Information
- Billed in 15 minute units
- Agencies providing IPS-SE are certified by the Ohio Department of Mental Health and Addiction Services and enrolled in Medicaid under provider type 84.

* Agency providers will be responsible for assuring IPS-SE employees whose services are billed to Medicaid meet the participation requirements, including offense exclusions for Medicaid. Public Consulting Group (PCG), a contractor to ODM, will check professional requirements during structural review visits. See [http://ohiohcbs.pcgus.com/](http://ohiohcbs.pcgus.com/).
Peer Recovery Support is the only Specialized Recovery Service with a limit. A person can receive no more than four hours of peer recovery support per day.

**Peer Recovery Support activities include:**

- Assisting the individual with accessing and developing natural support systems in the community;
- Attending and participating in care team meetings;
- Conducting outreach to connect individuals with resources;
- Coordinating and/or assisting in crisis interventions and stabilization needed;
- Developing and working toward achievement of the individual's personal recovery goals;
- Facilitating development of daily living skills;
- Modeling personal responsibility for recovery;
- Promoting coordination among similar providers;
Peer Recovery Support activities (Cont’d) include:

- Providing group facilitation that addresses symptoms, behaviors, and thought processes to assist an individual in eliminating barriers to seeking and maintaining recovery, employment, education, and housing;
- Supporting individuals in achieving personal independence as identified by the individual; and
- Teaching skills to effectively navigate the health care delivery system to utilize services.
Specialized Recovery Services Program

Peer Recovery Support

**Procedure Code for Peer Recovery Support**

- H0038 – individual
- H0038/HQ - group

**Billing and Certification* Information**

- Billed in 15 minute increments
- Agencies providing Peer Recovery Support are certified by the Ohio Department of Mental Health and Addiction Services and enrolled in Ohio Medicaid as a provider type 84.
- Agencies must employ individuals who are professionally qualified to provide PRS.

* There are differences between the Ohio Medicaid offense exclusions (OAC 5160-43-09) and the OhioMHAS offense exclusions for peer recovery support professionals (OAC 5122-29-15.1). Agency providers will be responsible for assuring PRS employees whose services are billed to Medicaid meet the participation requirements, including offense exclusions for Medicaid. Public Consulting Group (PCG), a contractor to ODM, will check professional requirements during structural review visits. See [http://ohiohcbs.pcgus.com/](http://ohiohcbs.pcgus.com/).
Peer Recovery Support Coverage

### Mental Health Benefit

**Program**
- Specialized Recovery Services
- ACT

**Authorization**
- Authorized by Person Centered Care Plan
- Prior authorization
- No more than 4 hours per day

**Billing**
- Only for individuals eligible for SRS
- H0038 - Individual
- H0038/HQ - Group

**Face to face contact by peer qualifies for monthly billing**

### Substance Use Disorder Benefit

**Program**
- SUD Outpatient
- SUD Residential

***Authorization**
- Authorized via treatment plan
- Discrete service

**Billing**
- Peer recovery supporter is part of clinical team
- H0038 - Individual
- H0038/HQ - Group

**Available to all residents since peer recovery supporter is part of clinical team**

**Covered as part of the per diem**

*Please keep in mind that the SUD State Plan affords the State the ability to prior authorize SUD services.*

**See previous ACT billing guidance provided on February 12, 2016 for additional clarification**
Specialized Recovery Services Program

- The SRS program budget is independent from the budget for the overall BH Redesign. Recovery Management is a selectively contracted service and not reflected below.

**Individual Peer Recovery Support**
$15.51 per 15 minute unit

**Group Peer Recovery Support**
$1.94 per 15 minute unit

**Individual Placement and Support-Supported Employment**
$19.53 per 15 minute unit
Specialized Recovery Services - Consumer Letter and Informational Video

SRS Consumer Letter
(See Printed Version for Complete Information)

Key Takeaways

- Individuals will keep current Medicaid benefits and will receive new service(s)
- Lists the recovery management agency
- Gives phone number to call if the individual has questions
- Lists high level eligibility criteria
- Lists new services available to those who are eligible

Link to Video - https://www.youtube.com/watch?v=KYVIGD2_K4Q
Specialized Recovery Services Program: Providers

✓ Coming soon, consumers who have been identified as possibly eligible for the Specialized Recovery Services (SRS) program will be receiving notification from the Ohio Department of Medicaid about how to enroll in this new program. Notification will come via a letter that explains the program, its new benefits, and how to enroll.

✓ If a provider believes an individual to be eligible for the SRS program, but that person has not received a letter, the provider should contact the Ohio Department of Medicaid, via an electronic process soon to be announced. Medicaid will then connect the person to an assigned recovery manager to begin program enrollment.

✓ Please stay tuned to [http://bh.medicaid.ohio.gov](http://bh.medicaid.ohio.gov) for more information and for upcoming tools that providers may use to assist with enrollment and education of consumers in the SRS program. These tools will include a provider toolkit and an educational video. Also, please make sure are signed up for our BH Redesign newsletter for all of the latest information: [http://bh.medicaid.ohio.gov/Newsletters](http://bh.medicaid.ohio.gov/Newsletters)
Specialized Recovery Services Program – MyCare Managed Care

MyCare Responsibilities

1. Individuals enrolled in the SRS program may be enrolled in MyCare Ohio and vice versa
   • Transition of care requirements will apply to individuals enrolled in SRS who then subsequently enroll in MyCare

2. MyCare Ohio Plans may prior authorize SRS program services in accordance with 42 CFR 438.210

3. My Care Ohio Plans are responsible for the payment of SRS program services

4. MyCare Ohio Plans will need to contract with these providers in their networks
   • Plans are not permitted to perform recovery management services-they must contract with at least 1 of the recovery management providers in each region
## MyCare Responsibilities Cont’d

### 5. Care Management:
- Recovery Manager will be included as part of the individual’s MyCare Ohio trans-disciplinary team
- The SRS plan will be integrated into the individual’s comprehensive care plan

### 6. Incident Management
- Reporting of incidents in accordance with policy

### 7. The IE will perform annual eligibility re-determinations for SRS program continued enrollment
Specialized Recovery Services Program - non-MyCare Managed Care

<table>
<thead>
<tr>
<th>Responsibilities of Medicaid Managed Care</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Managed Care Plans must coordinate with the Recovery Manager and IE for individuals enrolled in traditional managed care</td>
</tr>
<tr>
<td>• Managed Care Plans are not financially responsible for SRS program services until behavioral health is carved into managed care</td>
</tr>
</tbody>
</table>

Key Takeaways

• Specialized Recovery Services Program will be its own benefit plan with MITS.
• Assessment and service plan data will be sent from the IE to the plans.
  » A process similar to what is used for Waiver/MyCare may be used
