

## Enrollment Update: Board Licensed School Psychologist

**Effective July 13, 2017**, Board licensed school psychologists are eligible to enroll in Ohio Medicaid as independently licensed practitioners, classified in MITS as provider type/provider specialty 42/421. These school psychologists are licensed by the Ohio Board of Psychology and must operate within the scope of practice as defined in section 4732 of the Revised Code. Please see rule 5160-8-05 of the Ohio Administrative Code for more information and requirements for this specific provider type. In addition, all Ohio Medicaid providers must adhere to the general provider requirements found in Chapter 5160-1 of the Ohio Administrative Code.

Please visit <https://portal.ohmits.com/Public/Providers/Enrollment/tabId/44/Default.aspx> to complete the online provider enrollment application. If there are problems completing the application, please contact the Provider Enrollment Hotline at 1-800-686-1516 and choose option 2.

Board licensed school psychologists who are employed by a community mental health center (provider type 84) and/or substance use disorder agency (provider type 95) must also affiliate with these agencies in MITS for the agency to be reimbursed for services rendered by these practitioners. For practitioners who are employed by both a community mental health center and substance use disorder agency, the practitioner must affiliate with both provider types. Please see the MITS BITS on affiliation here: <http://mha.ohio.gov/Portals/0/assets/Planning/MACSIorMITS/mits-bits-rendering-providers-part-2-4-19-16.pdf>
