

CBHC Practitioner Enrollment File Now Available

CBHC Practitioner Enrollment File Now Available on BH Website

In February 2021 ODM communicated a need to temporarily suspend the CBHC Practitioner Enrollment file that is posted to the Medicaid behavioral health (BH) website on a weekly basis. Please refer to the February 18, 2021 MITS BITS (available [here](#)) for more information.

The CBHC Practitioner Enrollment file is once again available for BH agencies (MITS provider types 84 and 95) to view their affiliated practitioners. BH agencies can access the file on the BH website [here](#) under the “Enrolling Practitioners in Medicaid” section. Additionally, BH agencies are still able to access provider information via their secure MITS Portal by reviewing their “group members.”
